

## ※ Common Error & Solutions (Pop-up messages will appear)

### ● “Exceeded maximum enrollment (cannot apply for more courses)”

: This appears when you've reached your credit limit.

 **Solution:** Try selecting a different course, or remove a course from your Applied List or Waiting List to free up a slot. Additional seats may become available later — check back periodically.

#### **Important:**

① The combined total of applied and waitlisted courses cannot exceed the number of courses you have paid for.

*Example: If you paid for 2 courses and are registered for 1 + waitlisted for 1, you must cancel one before adding another.*

② If you have been accepted into the YISS Internship, you may only enroll in academic courses up to the allowed course load, excluding the internship (which counts as 1 course).

### ● “There is a time overlap in the course selection”

: This message appears when the selected course schedule overlaps with a registered one. The Yonsei Portal system does not allow enrollment in two courses at the same time.

✎ Solution: Review the schedule of your registered and waitlisted courses. Select only one course per time slot, and double-check your timetable before finalizing registration.

● **“Automatic Log-out”**

: Your browser may **log out automatically** if a **session timeout** occurs due to inactivity or someone else logs in with your **student ID** from another device.

✎ Solution: Try logging in again and ensure your password is correct. Or clear your browser history and cache.

● **“Course enrollment unsuccessful due to course time conflict. Apply for another course.”**

: This error appears when the course you selected overlaps with a course you are already registered for or waitlisted in.

✎ Solution: Check the schedule of your registered and waitlisted courses. Cancel the one causing the conflict, then apply for your preferred course.

● **“Already enrolled in the course”**

: This message indicates that you are already registered for this course or currently on the waitlist. Note that this does not confirm successful enrollment — please verify your status under “List of Applied Courses.”

✎ Solution: Check your registration status under "List of Applied Courses" or "Waiting List." If the issue persists, try clearing your browser cache and logging in again.

● **"You cannot enroll in this course due to major/grade limitation"**

: This error appears when a 4-week student attempts to register for a 6-week course, which is not permitted.

✎ Solution: Contact the YISS Office at [summer@yonsei.ac.kr](mailto:summer@yonsei.ac.kr) to inquire about changing your session. Please note that response times may be longer than usual during the registration period, as all requests are handled in the order received.
